
Log Likelihood $\log \mathcal{L}_{\bar{\Theta}}$ conditioned on β
Log likelihood
Discount factor (β)

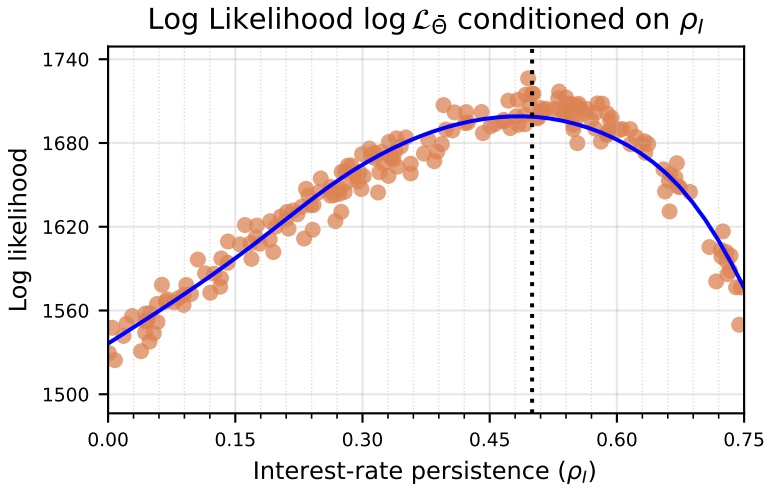

Log Likelihood $\log \mathcal{L}_{\bar{\Theta}}$ conditioned on σ
Relative risk aversion (σ)

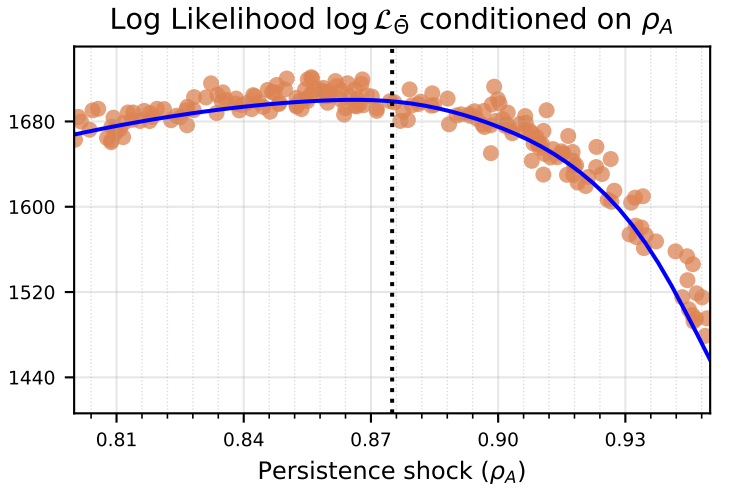

Log Likelihood $\log \mathcal{L}_{\bar{\Theta}}$ conditioned on η
Log likelihood
Inverse Frisch elasticity (η)

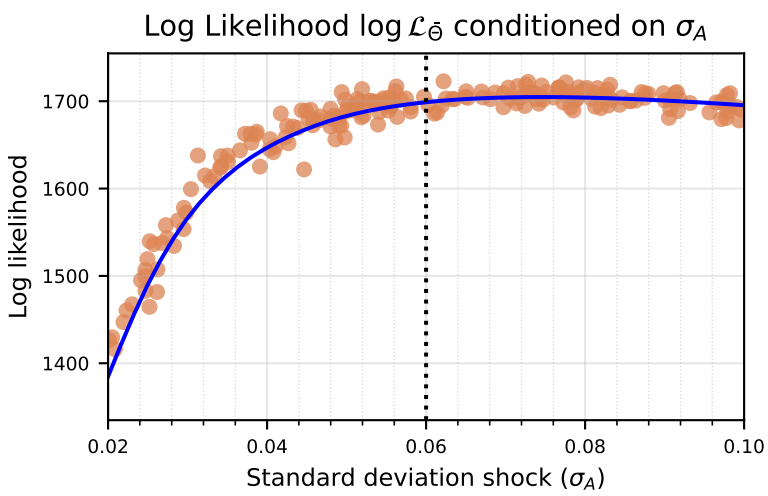

Log Likelihood $\log \mathcal{L}_{\bar{\Theta}}$ conditioned on ϕ
Price duration (ϕ)

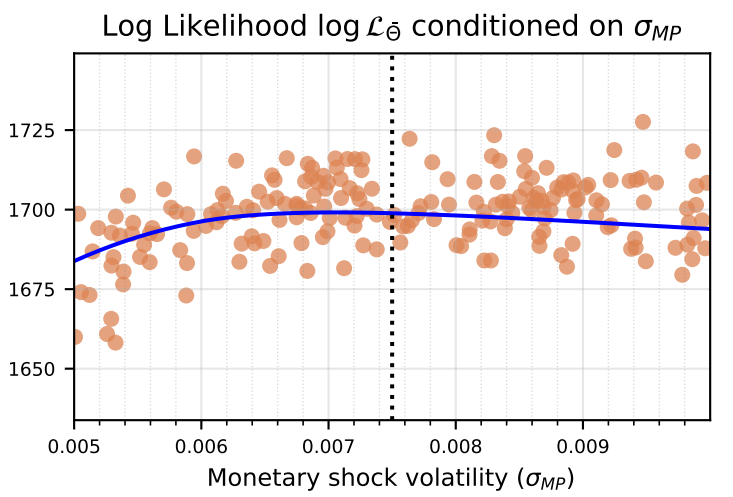

Log Likelihood $\log \mathcal{L}_{\bar{\Theta}}$ conditioned on ϕ_Π
Log likelihood
MP inflation response (ϕ_Π)

Log Likelihood $\log \mathcal{L}_{\bar{\Theta}}$ conditioned on ϕ_Y
MP output response (ϕ_Y)

Log Likelihood $\log \mathcal{L}_{\bar{\Theta}}$ conditioned on ρ_I
Log likelihood
Interest-rate persistence (ρ_I)

Log Likelihood $\log \mathcal{L}_{\bar{\Theta}}$ conditioned on ρ_A
Persistence shock (ρ_A)

Log Likelihood $\log \mathcal{L}_{\bar{\Theta}}$ conditioned on σ_A
Log likelihood
Standard deviation shock (σ_A)

Log Likelihood $\log \mathcal{L}_{\bar{\Theta}}$ conditioned on σ_{MP}
Monetary shock volatility (σ_{MP})
